			\$41	4	07
Balance unexpended,			\$8	5)3

The Town having purchased the Smith lot, so called, for the enlargement of the Town cemetery, it passes into the care and control of the cemetery commissioners, as provided for by law.

The lot contains seven and four-tenths acres, a plan of which is shown with this report.

The lot is connected with the old cemetery at the south east corner, and entered by a wide avenue running across the whole northwestern end of the new ground, and named Broadway avenue.

The larger part of this lot has been laid out into eight forty lot sections and bounded by avenues, making three hundred and twenty single lots 28 x 10 feet.

Some lots along the wall on Main avenue in the old cemetery, as shown on the plan drawn by W. A. Brown, are so small as to be of little use, and all numbers above 208 on these lots have been discontinued, so that lots in the eight sections of the new ground begin with No. 209 ending with No. 529.

A part of four additional sections, containing sixty-nine lots, but not yet numbered, are shown on the plan. These lots are on the eastern side of Oak avenue where the ground begins to be narrow.

The price of lots for sale has been fixed according to location and conditions. Lots graded up, and with perpetual care, \$150 each; all other lots, excepting those set apart for free burial, without grading and without perpetual care, \$25 and \$15 each, according to location. Single graves in lot set apart for that purpose, with perpetual care, \$10 each.

All lots in old part of cemetery have been sold except lots for single graves.

A part of Broadway and Linden avenues has been graded at a cost of \$100. It is necessary the present year in order to open up the different priced lots, to grade a part of Greenwood, Highland, Laurel, Forest and Grove avenues, and finish grading Broadway avenue.

The northwestern boundary line on Broadway should also have a face wall put up its entire length.

For this work and the general care of the cemetery the Commissioners recommend an appropriation of \$1000.

All business for the purchase of town cemetery lots, and for their endowment, must be done with the Cemetery Commissioners, and no other person is authorized to receive any payment or money for the same.

The Commissioners have to keep an account of all money received and pay it over to the Town Treasurer, taking his receipt therefor.

An endowment fund for the perpetual care of single lots should not be less than fifty dollars, and one hundred dollars would be a better provision.

Blanks for endowment fund should be obtained from the Commissioners and filled out in proper form.

All deeds must be paid for when delivered, and no lot will become the property of any person until paid for.

GEORGE K. KNOWLTON, GEORGE H. GIBNEY, FRANK C. NORTON,

Cemetery Commissioners.

PUBLIC LIBRARY.

Report of Trustees and Librarian.

In presenting their annual report, the Trustees wish to thank all who have assisted in making the work of the library a success during the past year. There is nothing new to report regarding the regular routine work. The constant aim of the Trustees has been to furnish all such books as the reading public wanted and no more. The kind of books have averaged largely fiction, and the very best of the kind, by the best authors, are the only ones that have been purchased, a few works on biography, history and travel have also been added. Efforts are being made constantly to call out suggestions from patrons for new books of fiction and for others adapted for special reading and study. It would be a great source of pleasure to the trustees if by some stimulation, more and better reading by the Town's people could be brought about and a larger variety of books purchased.

There is now in the treasury of the library one thousand (\$1000) dollars, left as a bequest by the late Augusta Dodge, a lady of educational interests, as a memorial to her sister, for a Free reading room, an adjunct of the public library, and to be called the Gail Hamilton Reading Room. How to dispose of this bequest is as yet a problem. It would seem

that as an adjunct of the Public library, the room had better be in the Town hall, and the only room there desirable for the purpose is the one directly opposite the hall from the present library quarters, and at present occupied by the school committee. Provided this room could be had, it is a question whether the expenditure of one thousand dollars or any part of it, in fitting up a reading and reference room in the latest and most approved designs, would be wise. Whether such a room so fitted up would be of greater service to more people, than now as a school committee room.

What this Town wants is what every other town and city in the world wants more good men and women, strong, well posted on affairs, self reliant, able to grasp any situation that may arise, broad minded and the greater the opportunity for study and self improvement that is placed before them, the more likely they are are to benefit and take advantage of it.

What a fine thing it would be if other bequests could be made by enterprising citizens, sons and daughters of the Town of Hamilton, to endow the public library, either for a general fund or for specific purposes. More money than is now spent could be used to good advantage if we had more room to spread out.

The capacity of the present reading room is now often times overtaxed with readers and visitors. The collection of valuable relics presented to the Town by the late James A. Garland should have a better place and some care.

A new supplementary catalogue from October, 1905, to the present time will be ready March 1st.

We are indebted to a few of our kind friends for contributions of reading matter for the use of patrons: to W.T. Lambert, for a lot of bound Blackwood's Magazines: to Mrs. Codman, Mrs. Frank C. Norton and Mrs. John H. Cross for books and magazines.

An appropriation of four hundred (\$400) is recommended for the ensuing year.

W. C. WARE, AUGUSTUS P. GARDNER, GEORGE v. L. MEYER,

Trustees.

GRACE C. STONE,

Librarian.

Park Commissioner's Report.

The Park Commissioners elected at the annual Town meeting, held March 12, 1907, organized as follows:—

8,	10110 112 1
George K. Knowlton, chairman,	term expires, 1910
REV. JAMES J. GOODACRE, secretary,	term expires, 1908
FRANK C. NORTON,	term expires, 1909

The commission has investigated the matter of procuring for the use of the town as a park or other public purpose, the private cemetery situated on Main street, in the centre of the Town, and known as the "Wigglesworth Cemetery."

This land contains about one and one-fourth acres, and has a frontage on Main street of 84 feet.

It was dedicated for use as a Cemetery April 28, 1850. Not a great many bodies have been buried there, and none in recent years. A number have been removed to the Town Cemetery by the descendants of the original owners, and only about a dozen still remain in the yard.

The present owners take no care of the lot: the larger part of the fence is down, and it has become a depository for rubbish. Property owners adjoining have sometimes cleaned it up a little for protection from danger by fire, and the moth commissioners have done some work there.

In order to ascertain if the present owners of the cemetery are willing to sell their right and title in the lot, inquiry has been made, as far as possible, of some descendant of each of the thirteen original proprietors, and nine have expressed their willingness to sell.

Should the town desire to possess this property it will have to be obtained by application to the Court. As this will involve some expense to the town the Commissioners recommend an appropriation of one hundred dollars for that purpose.

GEORGE K. KNOWLTON,
FRANK C. NORTON,
JAMES J. GOODACRE,

Park Commissioners.

TOWN MEETING WARRANT.

Essex ss. To either of the Constables of the Town of Hamilton.

GREETING:

In the name of the Commonwealth of Massachusetts, you are directed to notify and warn the inhabitants of the Town of Hamilton, qualified to vote in elections and in town affairs, to meet in the Town Hall in said Town, on Tuesday, the tenth (10th) day of March, nineteen hundred and eight, at six o'clock in the forenoon, then and there to act on the following Articles, viz.:

ART. 1. To choose a Moderator to preside at said meeting.

ART. 2. To bring in your ballots for Moderator for one year, Town Clerk for one year, three Selectmen, Overseers of the Poor, Board of Health, and Fence Viewers for one year,

One Assessor for three years, One Assessor for two years, One Assessor for one year, Town Treasurer for one year,
Town Auditor for one year,
Tax Collector for one year,
Tree Warden for one year,
Six Constables for one year,
One Commissioner of Cemetery for three years,
One School Committee for three years,

One Trustee of Public Library for three years,

One Park Commissioner for three years, to vote on the following question: "Sl

and to vote on the following question: "Shall license be granted for the sale of intoxicating liquors in this town?" "Yes" or "No." All on one ballot. The Polls will close at 10 o'clock A. M.

- ART. 3. To choose or appoint all other Town Officers in such manner as the Town may determine.
- ART. 4. To hear the reports of the Town Officers and act thereon.
- ART. 5. To raise such sums of money as may be necessary to defray the Town charges for the ensuing year.
- ART. 6. To see what action the Town will take towards grading and macadamizing Main street, from Wenham line to or beyond the railroad crossing, including the Depot Square, and make an appropriation for the same as petitioned for by Dr. Charles H. Davis and others.
- ART. 7. To see if the Town will vote to extend the pipe, from the main pipe, through the land of

Emery Lawrence and appropriate a sum of money for the same, as petitioned for by Daniel D. Stone and others.

- ART. 8. To see what action the Town will take towards accepting Pine Street, so called, as laid out by the Selectmen, and change the name to Cottage Street, grade and gravel said street and sidewalk, and appropriate a sum of money for the same, as petitioned for by Joseph W. Roberts and others.
- ART. 9. To see what action the Town will take towards building a sidewalk on both sides of Union Street, from Railroad Avenue to Asbury Street, and appropriate a sum of money for the same, as petitioned for by Alden J. Chandler and others.
- ART. 10. To see what action the Town will take towards grading and graveling Chebacco Road, and appropriate a sum of money for the same, as petitioned for by Isaac F. Knowlton and others.
- ART. 11. To see what action the Town will take towards accepting Prospect Street, so called, as laid out by the Selectmen, and appropriate a sum of money for the same, as petitioned for by Charles E. Whipple and others.
- ART. 12. To see what action the Town will take towards grading and graveling Asbury Street, from Turkey Brook to Topsfield line, and appropriate a sum of money for the same.
- ART. 13. To see what action the Town will take towards building a concrete sidewalk with curb

stone from Main Street to Willow Street, on the southerly side of Railroad Avenue, and appropriate a sum of money for the same, as petitioned for by Furman A. Smith and others.

- ART. 14. To see what action the town will take towards placing street lights on Rust Street and appropriate a sum of money for the same, as petitioned for by Walter P. Tuck and others.
- ART. 15. To see what action the Town will take towards having a regular uniformed police officer, to take any action on the matter, and appropriate a sum of money for the same, as petitioned for by Houston A. Thomas and others.
- ART. 16. To see what action the Town will take towards building stone or concrete steps at Town Hall.
- ART. 17. To see what action the Town will take on the petition of the Town of Manchester, before the Legislature, for additional water supply from Round Pond in Hamilton, and to take any action thereon.
- ART. 18. To see if the Town will appoint a committee to appear before the Committee on Taxation of the Legislature, in the interest of the Town of of Hamilton.
- ART. 19. To see if the Town will vote to purchase the Wigglesworth Cemetery.
- ART. 20. To see if the Town will vote to authorize the Park Commissioners to proceed in such man-

ner as may be necessary to secure title to the Wigglesworth Cemetery, and appropriate \$100 for legal expenses of the same.

- ART. 21. To see what action the Town will take towards appropriating a sum of money, not to exceed \$50, for purpose of observing Decoration Day by the soldiers of the Rebellion.
- ART. 22. To appropriate money for the repairs of highways, Town ways and bridges, and all other Town expenses, and to determine the manner of spending the same.
- ART. 23. To see what action the town will take towards fixing the salary of the Town officials.
- ART. 24. To see if the Town will authorize the Town Treasurer to hire money in anticipation of taxes.
- ART. 25. To see if the Town will authorize the Collector to use all means of collecting taxes which a Town Treasurer when appointed Collector may use, agreeable to Chapter 25, Section 75 of the Revised Laws.
- ART. 26. To determine what time tax bills shall be issued and taxes become due.
- ART. 27. To act on any other matter that may legally come before said meeting.

And you are directed to serve this warrant by posting attested copies thereof, one at the Meeting House, one at the Town Hall, and one at the South

Hamilton Post Office in said Town, seven days at least before the time of holding said meeting.

Hereof fail not and make due return of this Warrant, with your doings thereon, to the Town Clerk, at the time and place of holding said meeting.

Given under our hands this twenty-fifth day of February, A. D. 1908.

ESTIMATES FOR SCHOOLS.

Following is an estimate of the amount of money that should be raised and appropriated by the Town for all public school purposes for the year 1908-9.

For Town public schools,	\$8,950	00		
Tuition of pupils to city High				
schools,	625	0.0		
Transportation pupils to city				
High schools,	125	00		
School physician,	50	00		
School desks and other furniture,	175	00		
			\$9,925	00

SPECIAL APPROPRIATIONS.

A small engine for pumping water into the water tank in the top of the South schoolhouse is very much needed. It is an absolute waste of fuel to use the large boiler for this purpose in warm weather.

Electric or steam power sufficient for this purpose can be put in at a cost of about \$200 and at a great saving of fuel.

The committee recommends an appropriation of \$200 for this purpose.

Insurance on the South schoolhouse to the amount of \$8,000 through the agency of Arthur W. Chandler, expired on the third day of February.

An appropriation of \$240 is needed for its renewal.

REPORT OF TRUANT OFFICERS.

To the School Committee of Hamilton:

Gentlemen:—I herewith submit my report as truant officer for the Town up to the time of my resignation of the office in November. I had six investigations of truancy.

I was well received by the parents and guardians in every case and there was not any complaint made to me afterwards by the teachers but what those children were attending school as they should.

Respectully yours,

FRED A. NASON.

To the School Committee of Hamilton:

Gentlemen:—In submitting my report as Truant officer I would say that I have had no call for services.

Respectfully yours,

FRED C. SHALLER.

The committee are pleased to report a year of fairly good work in our schools.

During the winter the South and Center schools have suffered from an epidemic of measels.

In the closing term of the last school year in June, Mr. Fred C. Shaller, who had served so faithfully and well for nearly ten years as janitor of the South school, sent in his resignation. Mr. Waldo F. H. Peart of Manchester, was engaged to fill the vacancy and entered upon his work at the opening of the school year in September. Desiring to return to his home, he resigned the position at the close of

his second month of service. Mr. James H. Perron, a resident of the Town, was then engaged and is giving good and faithful service.

The repairs to the Center, East and West school houses, as recommended in our last annual report, have been made, so that no large repairs need to be made to any of the school buildings during the present year.

For the more efficient work of our High school, the committee finds it necessary to take the eighth grade from that department and put them in the grammar school room with the seventh grade where they belong. In order to perfect this arrangement it will be necessary to open another school room, therefore the committee recommends an appropriation of \$175 to furnish desks and other furniture.

The committee desires to acknowledge the presentation by Mr. Daniel C. Smith of a terrestrial globe to the South school.

For a detailed report of the condition and work of the schools, see the report of the Superintendent.

GEORGE K. KNOWLTON,
EVERETT A. SMITH,
LESTER E. LIBBY,
School Committee.

Report of the Superintendent of Schools.

GENTLEMEN:

It gives me pleasure to submit to you, this, my sixth annual report as superintendent of schools for the town of Hamilton.

There has been a rather material change in the school organization since a year ago. It has been customary in the town to run nine grades below the High school. We are now preparing for the High school in eight years. Among prominent educators of our country who have been studying where the school course can best be improved there is a strong concensus of opinion that it is wise to lessen the years spent in the grammar grades. The eight grade system is quite universal in the West. The city of Boston has recently changed from a nine to an eight grade system. This shortening of the Grammar school course is an effort to utilize the time of pupils to the best advantage. In our case this change from a nine to an eight grade system made it necessary to graduate two classes from the grammar school last spring, the ninth and eighth grades.

The High school course in general is a five years' course but pupils who show special ability and can carry extra work may make the course in four years. I would not consider this advisory for many pupils as I believe the five years time none too long to absorb the work of the course or to properly prepare for college, scientific or Normal school. The studies which prepare for mercantile pursuits are confined to the last two years of the High school course. Pupils who desire to take those studies will be given an opportunity to properly equip themselves in shorthand and typewriting as well as other business branches.

The High school principal makes the following report: Superintendent A. S. Thomson:

DEAR SIR:—It gives me great pleasure to state that the work in the High school is moving on smoothly and progressively. The pupils are thoroughly interested in their work and take pride in doing it well. Many come regularly for extra work in the afternoon. Cases of absence have been very few except where such absence was occasioned by sickness, and no pupils have dropped out except such as have removed from the town.

Respectfully submitted,
WILLIAM J. SANDS, Principal.

Some good hard work is being done in the High school. The pupils are getting a thoroughly good training. There may be more interest in attendance at a larger school, but we are doing strong work educationally.

EIGHTH GRADE.

At present the eighth grade which is taught by the high school teachers, has one session with the high school. Children as young as eighth grade pupils do better work in two sessions. They need the presence of the teacher to supervise and require study periods. Next year without the eighth grade there will be three grades—the ninth, tenth and eleventh—in the high school, which will require the time of two teachers. This will separate the grammar and high schools which is a desirable change as the methods of instruction in the high and grammar school subjects are very different.

SOUTH SCHOOL.

For several years the number of pupils per teacher in the South school has been very large. Some of the rooms have averaged from forty-five to fifty. This is a greater number of pupils than a teacher can hold and require the best grade of work of which they are capable. As the salaries have been small we have found it necessary at times to put into the schools inexperienced teachers. When a teacher steps before her first school numbering fifty pupils she undertakes a stupendous task if she expects to keep them up to grade. Some of the classes in the South school show the effects of these large numbers and the situation should be relieved as soon as possible by the addition of another room and teacher.

READING.

It is very important for pupils to form the habit of reading. In order that children shall form this habit, the mechanics of reading, recognizing and pronouncing of words, must be mastered. We are succeeding well in this mechanical part in our primary grades. After the first two or three years of school work interesting books must be put

into the hands of children so that silent reading becomes enjoyable. The children should be allowed to handle the books, look at the pictures, and perhaps be told by the teacher just enough about the story to arouse interest. The Hamilton Public Library has an excellent lot of good books for children. By the courtesy of the library management the teachers have the privilege of drawing several books at a time for use in the schools, thus the children are becoming acquainted with desirable books. If they form a taste for useful books they are sure to become intelligent citizens.

The following is a brief but suggestive list of books well adapted to the graded system:

GRADES I TO IV.

Book	Author	Publisher
In Mythland	Beckwith	D. C. Heath & Co.

NO SCHOOL SIGNAL.

There are a few days in each year which are too stormy for children to attend school. If they go they get wet and sit with damp clothes through the session. The result is often a cold and several weeks absence. On stormy days when the schools do not keep open, although it is true that some children are out playing in the storm, yet when they stop exercising they go home and get a change of clothing. If they catch cold from this exposure the responsibility is upon the parents and the school authorities have done what they could to protect the health of the children. There should be some arrangement by which a "no school" signal can be given.

There has been a good deal of sickness among the children which makes the attendance unusually poor. Last spring scarlet fever was prevalent and this fall nearly the entire school had measles.

The teachers have made the required test of sight and hearing of all the pupils in school. The following is the result:

Whole number examined,	306
Number with defective eyesight,	35
Number with defective hearing,	20
Number of notices sent to parents,	25

PENNY SAVINGS.

The habit of saving and the self confidence which a bank account, however small, gives one, makes the penny saving system a worthy cause which should be encouraged by parents and assisted by teachers.

A gradual growth is shown by the following report of Mrs. Sarah E. Barrett, superintendent of the penny savings system, for the W. C. T. U.

REPORT OF PENNY SAVINGS IN SOUTH HAMILTON.

The work of the past year which has steadily gone on — though not so generally among all the grades, as when the enthusiasm of the first year stimulated pupils — has been sufficient to encourage the promoters to continue their work, and to also give the superintendent of this department of the W. C. T. U. the satisfaction of seeing the habits of thrift growing among the children, as the introduction of the system into the schools was designed to do. Many new accounts have been opened during this term, and we find many are desirous of placing their funds at interest in Saving Banks.

Thanks are due the teachers for their interest and also their kindness.

Total amount deposited from March 25, 1904 to January 1, 1908 is \$303.78.

Yours Respectfully,

SARAH W. BARRETT.

SEWING.

An educated person is one who meets the conditions of life prepared and performs its obligations with skill and pleasure, not necessarily the one who has gone through a high school or college and made the motions of receiving an education. Our schools should fit boys and girls to

perform the tasks which come continually to them with intelligence and ability. In many homes where the mothers are heavily burdened, often assisting in the support of the family, the daughters are not taught to perform properly simple domestic duties. Sewing could be taught the girls while a class of constructive manual work would be held for the boys.

MUSIC AND DRAWING.

New interest has been given to the work in music by the introduction of the New Educational Music books. The technicalities of reading music are thoroughly and well developed and the music is inspiring. The reports of the music and drawing teachers will be found in the appendix.

SUPPLIES.

The maps in the district schools are extremely dilapidated besides being much out of date. All the district schools should have new sets of single maps mounted on spring rollers.

TEACHERS.

For the best results in our schools it is necessary to have a uniform method of school work. This is difficult to secure with a constantly changing corps of teachers. As soon as one of our teachers learns what is required of her and becomes familiar with the material and supplies at her disposal she generally moves on to some more lucrative position. The town of Hamilton is in a position to gain and retain the highest grade of teachers.

At the close of school last spring Miss Carrie Robie, a most faithful and devoted teacher resigned and Miss Edna Gordon, a graduate of Salem Normal was hired to take the South primary. Miss Dessa Washburn of the South grammar resigned to accept a position in the Normal school of Plymouth, New Hampshire and Mrs. Mattie E. Buell was secured for the place. Mrs. Grace Lamson of the West school resigned in June and Miss Elsie Baker, a Salem Normal graduate was given the position; also last June Mr. E. C. Polk of the High school resigned. Mr. William J. Sands, a Harvard College graduate, has been conducting the High school with marked success. At the close of the fall term Miss Susie Paine of the South school resigned to take a place in Salem. This vacancy was filled by Miss Louise Dearing, a graduate of Vermont Normal. These teachers are doing good work and are entitled to your confidence and support.

In conclusion I wish to add an invitation to parents and friends to visit the schools more regularly. Frequent calls during school sessions gives an added stimulus and enthusiasm to both pupils and teachers.

I wish to express my thanks to the teachers for their loyalty and devotion to their work, and to the Committee for their confidence and support.

Respectfully submitted,

Andrew S. Thomson,

Superintendent of Schools.

Report of Supervisor of Drawing.

MR. A. S. THOMSON, Superintendent of Schools:

Dear Sir: — It gives me pleasure to say that I have found the children in your schools very enthusiastic over the work. They take hold with much readiness and responsiveness and with the assistance I am now giving them I trust we shall build a strong foundation.

Naturally we do not expect to make artists of all our children, but we should like to give them the power to represent with a fair amount of truth, what they see, and to be able to use drawing freely in other subjects as a means of expressing themselves.

As the child leaves the nursery, his faculties must be developed, he must be taught to form habits, his memory must be strengthened and his imagination must be kept alive by such things that interest him. Drawing in its many phases, helps to develop these.

Rules and principles are not of such supreme importance, as are sharp eyes and the ready pencil or brush with which to record our observation. Our aim therefore, in the limited time given us, will be to strive for beauty in form and proportion not only in the representation of objects, but in the planning and carrying out of every bit of work we do.

However, as each room contains two or three grades, and the district schools all the grades, I have had to simplify the work in order to make it possible for the lower grades in the room to understand the problem at hand, and divide each district school into two divisions, thus conducting two lessons in one period.

In the interval between my visits, I leave one, two or three lessons planned for each teacher to give, according to the grades she has, and the time she can devote to the subject.

I wish to thank the teachers for their kind assistance, and hope that our combined efforts may prove successful.

Respectfully submitted,

GOLDIE LONDON,

Supervisor of Drawing.

Report of Supervisor of Music.

To the Superintendent of Schools, Hamilton:

I wish to say teachers and scholars are enjoying the New Educational Music Course of books, with which you have recently supplied the schools. We now have a course of music that is excellently graded, and instead of so many exercises we have classic songs that will develop the scholar's ability to read music at sight and at the same time teach them a large number of the best songs of our great composers. We will be able to teach the scholars to appreciate the Divine Art and desire nothing but the best in music thereby opening an avenue of culture that will be a source of great pleasure to them as they go out into the world. The voices are being watched carefully and tested and placed on the part that is best for them to sing. No scholar is allowed to shout or use the lower register too high, thereby straining the voice and possibly ruining it for life.

In closing I wish to thank the teachers for the interest they have manifested, and for the good work they have done. I feel especially pleased with the excellent singing in the High School and hope the good work will continue.

Respectfully submitted,

G. F. SMITH,

Supervisor of Music.

SCHOOL CALENDAR.

1908 - 1909.

March 20.	All schools close for spring vacation.
March 30.	All schools open for spring term.
June 19.	Grade schools close for summer vacation.
June 26.	High school closes for summer vacation.
September 8.	All schools open for fall term.
November 25.	All schools close for Thanksgiving.
November 30.	All schools open for winter term.
December 18.	All schools close for Christmas.
December 28.	High school opens.
January 4.	Grade schools open.
March 26.	All schools close for spring vacation.
April 6.	All schools open for spring term.
June 18.	Grade schools close for summer.
June 25.	High school closes for summer.

CENSUS, SEPTEMBER, 1907.

Number of children in town between five and fifteen years of age.

Boys,	168	
Girls,	140	
	Total,	308
Number between seven	and fourteen
